Testimonials clients

“

The ADP Group has awarded Maser Engineering for the maintenance of Paris CDG Passenger Boarding Bridges since 2008 due in particular to the professionalism of the staff, their availability and constant commitment. The strength of a major group allows Maser Engineering to react quickly to unexpected needs and during peak season.

The services requested in many fields such as mechanics, hydraulics, electricity and metalwork are fully performed within the requested deadlines. Maser Engineering is highly versatile in providing turnkey solutions at controlled and competitive prices and is dedicated to providing always the best services.

”

Laurent MARECHAL, Maintenance Manager for aircraft station equipment, ADP Group (Paris CDG Airport)

“

The preventive maintenance of our Passenger Boarding Bridges has been awarded to Maser Engineering since 2015. Since then a real partnership has emerged. Their technical expertise, reactivity and proactiveness allow us to satisfy our customers every day.

Their arrival on the metalwork market makes it possible for us to expand our collaboration and achieve our objectives on time and within budget.

”

Arthur CATIMEL, Terminal and Safety Equipment Manager, Nice Côte d'Azur Airport
